PROFESSIONAL OVERVIEW

Detail-oriented Computer Science student with a concentration in Software Engineering. Adept in Java, C++, Python, and JavaScript, with hands-on experience in mobile and full-stack web development. Demonstrates strong problem-solving abilities, effective team collaboration, and a passion for building scalable, user-centric applications.

PROJECTS

RoundTable App – Full-Stack Mobile App (React Native, MongoDB)
Status: In Development (2025)

- Implemented Google OAuth authentication with persistent login state
- Built a dynamic home screen with React Native hooks and MongoDB integration
- Integrated Expo Location API to enable GPS-based restaurant filtering
- Utilized Expo Router for structured, scalable navigation architecture

Inventory Management App – Android Studio + Java

- Developed UI with RecyclerView and custom adapters
- Enabled full CRUD operations using local SQLite database
- Focused on usability and efficient local data persistence for small businesses

Rescue Animal Dashboard – Python + PyMongo + Jupyter Notebook, MongoDB

- Designed and implemented full CRUD operations for the **Grazioso Salvare** animal rescue/training database.
- Built and tested a Python CRUD module integrated with MongoDB, ensuring secure and efficient data access.
- Validated, queried, and filtered records to meet client specifications

Healthy Food Scanner App – Lucidchart + Mockflow

- Designed UI/UX wireframes in Lucidchart for a mobile barcode scanning app
- Focused on intuitive user flow and real-time feedback on ingredient quality

PROFESSIONAL EXPERIENCE

FedEx Express — Courier

Novi, MI | Oct 2020 – Present

- Delivered packages under strict time constraints while maintaining 99% customer satisfaction
- Solved real-time logistics issues and optimized delivery routes in high-pressure environments
- Demonstrated consistent punctuality, problem-solving, and professionalism

EDUCATION

Southern New Hampshire
University — Manchester, NH
Bachelor of Science in Computer
Science
Concentration: Software
Engineering
Jan 2023 – Present | GPA: 3.9

SKILLS

Languages:
Java, Python, C++, JavaScript

Mobile Development:
React Native, Expo, Android
Studio, SQLite

Web & Backend:
Node.js, Express.js, MongoDB,
RESTful APIs

Tools & Platforms:
Git/GitHub, Jupyter Notebook,
Lucidchart, MySQL

Methodologies:
Agile, Scrum

Soft Skills:
Critical Thinking, Communication,
Adaptability, Time Management
