### PROFESSIONAL OVERVIEW

Motivated and detail-driven Computer Science student with a 3.9 GPA and a concentration in Software Engineering. Adept in Java, C++, Python, and JavaScript, with hands-on experience in mobile and full-stack web development. Demonstrates strong problem-solving abilities, effective team collaboration, and a passion for building scalable, user-centric applications. Actively seeking an entry-level software engineering role or internship.

### **PROJECTS**

RoundTable App - Full-Stack Mobile App (React Native, MongoDB)

Status: In Development (2025)

- Implemented Google OAuth authentication with persistent login state
- Built a dynamic home screen with React Native hooks and MongoDB integration
- Integrated Expo Location API to enable GPS-based restaurant filtering
- Utilized Expo Router for structured, scalable navigation architecture

### Inventory Management App - Android Studio + Java

- Developed UI with RecyclerView and custom adapters
- Enabled full CRUD operations using local SQLite database
- Focused on usability and efficient local data persistence for small businesses

# Rescue Animal Training Database – Python + PyMongo + Jupyter Notebook

- Designed and implemented a MongoDB database to manage rescue animal training records for Grazioso Salvare
- Developed full CRUD functionality and validated data queries using PyMongo in Jupyter Notebook
- Applied advanced MongoDB queries and filtering to support business use cases, including breed, training status, and adoption readiness

## Healthy Food Scanner App – Lucidchart + Mockflow

- Designed UI/UX wireframes in Lucidchart for a mobile barcode scanning app
- Focused on intuitive user flow and real-time feedback on ingredient quality

# PROFESSIONAL EXPERIENCE

FedEx Express — Courier

Novi, MI | Oct 2020 – Present

- Delivered packages under strict time constraints while maintaining 99% customer satisfaction
- Solved real-time logistics issues and optimized delivery routes in high-pressure environments
- Demonstrated consistent punctuality, problem-solving, and professionalism

## **EDUCATION**

Southern New Hampshire University — Manchester, NH
Bachelor of Science in Computer Science
Concentration: Software Engineering
Jan 2023 – Present | GPA: 3.9

# SKILLS

Languages:

Java, Python, C++, JavaScript

Mobile Development:

React Native, Expo, Android Studio, SQLite

Web & Backend:

Node.js, Express.js, MongoDB, RESTful APIs

Tools & Platforms:

Git/GitHub, Jupyter Notebook, Lucidchart, MySQL

Methodologies:

Agile, Scrum

Soft Skills:

 ${\bf Critical\ Thinking,\ Communication,\ Adaptability,\ Time}$ 

Management
